Subject Index of Volume 42

Adhesion
microhardness and adhesion of TiB_2 coatings produced by dynamic ion mixing, 81
Aero engines
the influence of surface coatings on the fatigue behaviour of aero engine materials, 13
the use of thermally sprayed coatings for compressor and turbine applications in aero engines, 1
Aluminium
chemical compatibility of coated systems at high temperatures, 101

Boron
chemical vapour deposition of boron carbides on uncoated and TiC-coated cemented carbide substrates, 187
tribological performance of ion-beam-mixed Fe/B multilayers on M50 steel, 283
Boron carbide
laser-melt injection of B_4C on titanium, 275

Carbides
chemical vapour deposition of boron carbides on uncoated and TiC-coated cemented carbide substrates, 187
Carbon materials
deposition and analysis of Ir–Al coatings for oxidation protection of carbon materials at high temperatures, 29
Chemical interactions
atomic oxygen-MoS_2 chemical interactions, 41
Chemical vapour deposition
chemical vapour deposition of boron carbides on uncoated and TiC-coated cemented carbide substrates, 187
Cobalt
chemical compatibility of coated systems at high temperatures, 101
evaluation and uses of composite Ni–Co matrix coatings with diamonds on steel applied by electrodeposition, 227
Combustors
surface behavior of heat exchange tubes in fluidized-bed combustors, 253
Compatibility
chemical compatibility of coated systems at high temperatures, 101
Copper
effect of pulsed reverse current on the structure and hardness of copper deposits obtained from acidic electrolytes containing organic additives, 69
Cordierite
thermomechanical properties of plasma-sprayed oxides in the $MgO–Al_2O_3–SiO_2$ system, 203

Degradation
chemical compatibility of coated systems at high temperatures, 101
Doping
effects of laser processing and doping on the lubrication and chemical properties of thin MoS_2 films, 217
Dynamic ion mixing
microhardness and adhesion of TiB_2 coatings produced by dynamic ion mixing, 81

Electrodeposition
evaluation and uses of composite Ni–Co matrix coatings with diamonds on steel applied by electrodeposition, 227

Fatigue
the influence of surface coatings on the fatigue behaviour of aero engine materials, 13
Forsterite
thermomechanical properties of plasma-sprayed oxides in the $MgO–Al_2O_3–SiO_2$ system, 203

Elsevier Sequoia/Printed in The Netherlands

Friction
friction and wear of sliding couples coated with TiC, TiN or TiB_2, 133
wear behaviour of nitrogen-implanted AISI 420 martensitic stainless steel, 119

Hardness
effect of pulsed reverse current on the structure and hardness of copper deposits obtained from acidic electrolytes containing organic additives, 69
new developments in the modelling of the hardness and scratch adhesion of thin films, 149
Heat exchange
surface behavior of heat exchange tubes in fluidized-bed combustors, 253
Hot hollow cathode
ion behaviour in the hot hollow cathode coating of silver, 91

Ion beam deposition
tribological performance of ion-beam-mixed Fe/B multilayers on M50 steel, 283
Iron
tribological performance of ion-beam-mixed Fe/B multilayers on M50 steel, 283

Laser melting
laser-alloying of a plasma-sprayed WC/Co layer to enhance wear properties, 175
laser-melt injection of B_4C on titanium, 275
Laser surface hardening
residual stresses in laser surface hardening of large areas, 165
Laser-alloying
laser-alloying of a plasma-sprayed WC/Co layer to enhance wear properties, 175

Microhardness
microhardness and adhesion of TiB_2 coatings produced by dynamic ion mixing, 81
Molybdenum sulphide
effects of laser processing and doping on the lubrication and chemical properties of thin MoS_2 films, 217

Nickel
evaluation and uses of composite Ni–Co matrix coatings with diamonds on steel applied by electrodeposition, 227
Nitrogen implantation
wear behaviour of nitrogen-implanted AISI 420 martensitic stainless steel, 119

Oxidation protection
deposition and analysis of Ir–Al coatings for oxidation protection of carbon materials at high temperatures, 29

Physical vapor deposition
residual stress and strain distribution anomalies in TiN films deposited by physical vapor deposition, 49
Plasma spraying
thermomechanical properties of plasma-sprayed oxides in the $MgO–Al_2O_3–SiO_2$ system, 203

Residual stress
residual stresses in laser surface hardening of large areas, 165

Scratch testing
new developments in the modelling of the hardness and scratch adhesion of thin films, 149
Silver
ion behaviour in the hot hollow cathode coating of silver, 91
Spinel
thermomechanical properties of plasma-sprayed oxides in the $MgO–Al_2O_3–SiO_2$ system, 203
Sputtering
effects of laser processing and doping on the lubrication and chemical properties of thin MoS_2 films, 217
Steel
tribological performance of ion-beam-mixed Fe/B multilayers on M50 steel, 283
Strain
residual stress and strain distribution anomalies in TiN films deposited by physical vapor deposition, 49

Stress
residual stress and strain distribution anomalies in TiN films deposited by physical vapor deposition, 49
Structure
effect of pulsed reverse current on the structure and hardness of copper deposits obtained from acidic electrolytes containing organic additives, 69

Ternary coatings
development of low temperature ternary coatings for high wear resistance, 21
Thermally sprayed coatings
the use of thermally sprayed coatings for compressor and turbine applications in aero engines, 1
Titanium
friction and wear of sliding couples coated with TiC, TiN or TiB_2, 133
laser-melt injection of B_4C on titanium, 275
Titanium carbonitride
ion-plated titanium carbonitride films, 237
Titanium nitride
ion-plated titanium carbonitride films, 237

Wear
development of low temperature ternary coatings for high wear resistance, 21
friction and wear of sliding couples coated with TiC, TiN or TiB_2, 133
wear behaviour of nitrogen-implanted AISI 420 martensitic stainless steel, 119
Wear resistance
laser-alloying of a plasma-sprayed WC/Co layer to enhance wear properties, 175
